

# CNM COLLEGE OF NATUROPATHIC MEDICINE

Training Successful Practitioners

## Being a CNM-trained Natural Health Practitioner is a great career!

### NUTRITIONAL THERAPIST, REBECCA

I suffered with chronic fatigue. Nutrition made me feel better, and today I lead a normal life without pain. I chose to study Nutrition with CNM because of their natural, holistic approach. The clinic that I opened after graduating is super-busy. I specialise in seeing clients with chronic fatigue and I love seeing their progress.

### ACUPUNCTURIST, SEJAL

Having experienced fertility issues I tried acupuncture and found it very successful. I was inspired to study acupuncture so that I could help others with similar problems. I've been in practice now for 6 years. I absolutely love what I do and I've seen great results for my clients. It's also great that I can work around family commitments, especially with three children!

### HERBALIST, ADAM

I studied herbal medicine because it combined my scientific background with my interest in natural healthcare. I chose CNM's course because it's based on naturopathic practices and because students learn to be confident practitioners. Now, as a busy practitioner, it's truly wonderful to be doing something I believe in and helping people on a daily basis.

### HOMEOPATH, GUNILLA

I gave my children homeopathic remedies for minor ailments and found them so effective that I decided to train to become a homeopath! I found my CNM studies enthralling. On qualifying I quickly built up my practice. 90% of my clients come by recommendation. Being self-employed means that I can work the hours I choose.

### CNM NATURAL CHEF, LORETTA

I took over a busy London café where we offer scrumptious and nutritious dishes catering for vegetarian, vegan, raw-food, dairy and gluten-free diets. We're packed every day, so it's clear that there is a real call for healthy and delicious food that caters for different preferences and allergies. I'm so glad that I pursued my passion and went for it!

### NUTRITIONAL THERAPIST, NERINGA

Studying at CNM was completely wonderful. I met amazing teachers, gained so much knowledge, and was able to address my own health and fertility issues. As a Nutritional Therapist I love everything about practising and improving people's lives. As we now have two daughters, it's fantastic being able to fit practising around looking after them.

CNM is the UK and Ireland's largest training provider in a range of natural therapies. 80% of our graduates are practising. We also offer Short Courses for interest.

Colleges in London, Brighton, Bristol, Birmingham, Manchester, Edinburgh, Belfast and Ireland.

Attend an Open Evening to find out more about part-time or full-time study with CNM.
