

NEW YEAR, NEW CAREER

Study a natural therapy with CNM, the College of Naturopathic Medicine and start your dream career as a Nutritional Therapist, Herbalist, Acupuncturist, Homeopath, Naturopath, Natural Chef or Vegan Natural Chef

MY SUCCESSFUL CAREER

JOANNE HILL,
NUTRITIONAL
THERAPIST

My son was just three months old when I started CNM's Diploma Course

in Naturopathic Nutrition. CNM was happy to find a study plan that would work for me.

I loved returning to study, spending time with people of different ages, situations and backgrounds, all so passionate about nutrition and natural therapies. CNM lecturers were very knowledgeable and were able to pass on their considerable experience. For me, the most enjoyable part of the course was the clinical practice, learning how to take a set of symptoms and to understand the triggers to these, then really working on the underlying causes, for some great results.

I graduated from CNM in 2009 and began practising as a Nutritional Therapist. I still practise, although now much of my time is spent running my multiple award-winning shop and clinic in Stockport. We offer consultations with registered nutritional therapists, acupuncturists, and other therapists, and help to promote health and nutrition in the wider community. If you are considering a career in natural health, I would say 'go for it'. It's definitely one of the most rewarding careers you can have.

“I loved returning to study, spending time with people of different ages, situations and backgrounds”

Full time and part time studies.
